

# *VIP Protection and Operational Driving Course proposal*

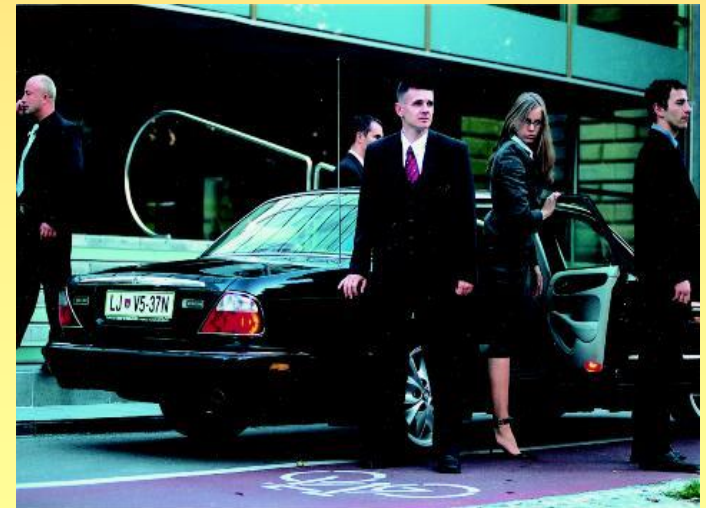

Golan E Levy  
SIA & Expert Krav-Maga  
Instructor

## ***Course contents:***

- **Operational driving**
- **Theoretical training (SIA Curriculum)**
- **Security personnel training (SIA Curriculum)**
- **Conflict Management & Physical Intervention**
- **Krav Maga - Self defense**
- **Pistol combat shooting**
- **Detection and avoidance of explosive devices**
- **First aid at conditions menacing to a life**

## ***Theoretical training***

- Concepts of movement in VIP protection
- How to secure a building with a small team
- Secure escorting methods
- Area sterilization

## ***Theoretical training***

- Open and confined area protection
- Attitude and professional rules
- Designing a VIP protection plan

# **Security personnel training**

- The security guard objectives
- Basic terms
- The threats from the point of view of the security guard
- Identifying the risks
- Combing / screening

## ***Security personnel training***

- Performing inspections (people, belongings, cars)
- Typical modus operandi of terrorists
- Procedures and behavior in various scenarios
- Reacting to various scenarios

# ***Security personnel training***

## **Skill Exercises:**

- ✓ Inspecting
- ✓ Combing
- ✓ Identifying
- ✓ Behavior in the scene

## ***Operational driving***

### **Theoretical part of the course**

- Introduction
- Safety instruction
- The factors affecting vehicle stability
- Analyzing the factors affecting the vehicle capabilities (tires, steering, brakes, shock absorbers, front drive, rear drive).

## ***Operational driving***

### **Theoretical part of the course**

- Driver fitness and limitation
- Operational traffic view
- Emergency in driving: brake, skidding, obstacle, block, ambush
- Siren & emergency light use
- A briefing before each vehicle drill

## ***Operational driving***

### **Theoretical part of the course**

- ❑ **Driving VIP vehicle:**
  - ✓ Inspection and vehicle preparation
  - ✓ General instruction
  - ✓ Vulnerable points on the road
  - ✓ Critical driver errors
  - ✓ Unloading & extrication
  - ✓ Motorcade procedures
  - ✓ Threat situations escape
  - ✓ Analyzing past events

## *Operational driving*

### Range exercises

- ❑ Vehicle inspection: liquids, windows, lights, mirrors, air-pressure, and driver equipment according to the mission
- ❑ Driver's sitting principals: steering efficiency, pedals control, mirrors adjustment
- ❑ Serpentine driving in changing speed. Driving forward and backward
- ❑ Obstacle avoidance using brakes and steering

## ***Operational driving***

### **Range exercises**

- Dead end escapes – steering
- Dead end escape under pressure
- Backward driving – high speed on a straight line
- Changing driving direction: U turn, J turns
- Driving around cones while executing sharp turns
- Quiet driving and stopping at the target

## ***Operational driving***

### **Range exercises**

- Coordinating driving of several vehicles, in close distance
- Avoidance of a vehicle block by heading on
- Driving with a team: brakes, unloading and loading
- VIP extrication under threat – drill
- Driver switch while driving

## ***Operational driving***

### **Driving drills on different road conditions – Day & Night**

- Driving in high speed and efficiency to a designate location
- Off road recovery
- Positioning the vehicles on the road
- Communication between drivers without using radio
- Driver / security team coordination

## ***Operational driving***

### **Driving drills on different road conditions – Day & Night**

- ❑ Motorcade drills: VIP changing position, bocks, overtaking, driving through junctions, direction change
- ❑ Exercise sharp U turns
- ❑ Exercise hostile vehicle trying to cut the VIP convoy
- ❑ Avoidance a block in front, blocking the sight line for the VIP vehicle, executes U or J turn according the situation

## ***Operational driving***

### **Driving drills on different road conditions – Day & Night**

- ❑ Extrication from front & back block by foot
- ❑ Driving through junction with & without lights, crossing roads, pavements
- ❑ Studying the routes, changing routine, attention to vulnerable points
- ❑ Gravel roads driving: vehicle control, motorcade procedure, communication

## ***Operational driving***

### **Driving drills on different road conditions – Day & Night**

- ❑ Driving & stopping quietly in different speed
- ❑ Motorcycles engagement with VIP protection
- ❑ Using different available aids
- ❑ Upon request, available 4X4 vehicles' drivers training: correct use of the drives, driving in difficult surface condition, passing obstacles, driving up and down hills, side slope, driving in sand / mud / rocks surface

## ***Krav Maga – Self defense***

- Technique philosophy
- Aggressiveness & Hand to Hand Combat
- Body search
- Strangles and locks
- Defense against knives attacks

## ***Krav Maga – Self defense***

- Body and weapon combination
- Passage through a crowd
- Controlling, Restraining and Taking-down techniques
- Attack & Defense techniques
- Determination drills

## ***Pistol combat shooting***

- The principles of the “pointing” way of shooting
- Instinctive and selective way of shooting
- Shooting from narrow and wide angle of target positioning
- Drawing the pistol from concealed positions

## ***Pistol combat shooting***

- Shooting while you are covered, hidden.
- Prioritization of fighting choices.
- Crossing through the crowd
- Shooting while being surrounded by the crowd and target selection using special accessories.

# ***Detection and avoidance of explosive devices***

- Terror around the world – Review
- Explosives theory and standard charges
- IEDs (improvised explosive devices)
- Safety regulations and procedures

## ***Detection and avoidance of explosive devices***

- The components and structure of IEDs, Car bombs and suicide bombs.
- Booby traps
- Camouflage - Smuggling and Concealing
- Suspicious object scenarios

# ***Detection and avoidance of explosive devices***

- Suspicious car scenarios
- Other platforms scenarios
- Suicide bombers scenarios
- Suspicious mail packages and letters
- Anonymous alerts

# ***Detection and avoidance of explosive devices***

- IEDs in the criminal world
- The explosion scene
- Combing, Scanning - Planning, managing and performing
- Inspecting cars and people
- Night work

## ***First aid at conditions menacing to a life***

- **Trauma resuscitation**
  - A. Open airway
  - B. Breathing
  - C. Circulation
- **Immobilization**
  - Extremities
  - Spinal
- **Stop bleeding**
  - Imposing of a plait
  - Imposing of a pressing bandage
  - Bandaging and kinds of bandages

# *Operational Driving and VIP Protection Course*

**Be aware - Be ready!**
